## EDUCATION

### SOFTWARE ENGINEER

AL BAATH UNIVERSITY  
2017-2022

## SKILLS

### CLEAN CODE

### COMMUNICATION

### TEAMWORK

### TIME MANAGEMENT

## WHO AM I?

As a software engineer with over two years of experience, I specialize in developing and maintaining web applications using the latest technologies. My expertise includes full-stack development, object-oriented programming, database design, software testing, and machine learning/deep learning. I'm passionate about creating robust and user-friendly applications that are both efficient and secure. I'm always eager to take on new challenges and expand my knowledge.

## Volunteer work

### Aga Khan Council For Economic Development.

2021-Present

About 2 year of work with IT team.

we worked on:

- Two projects for Social Development(Job Bank and Limitless "COMING SOON").

## Experience

### Expora Global Consulting

2021-2022

- Worked as Back-End web developer in Node.js.
- I built about 4 projects with Expora(such as e-learning platforms, e-commerce websites, and many web applications).
- Sometimes I was provided tips about software development process, and many of technical things.

### Web development freelance
